

creating their own materials

Students start

Between online (1-5) lessons

Students work actively on online platforms to do assessment as well as practice in the kitchen lesson

Before the online lesson

During the online lesson

After the online lesson

Students are preparing for lessons, getting to know the material, doing the introduction demos in advance

Teachers and students discuss the teaching materials together with everyone in different VET organizations

Students do the given assignments in groups and focus on the next online lesson
