

STUDENT SELECTION PROCEDURE

Student selection involves a rigorous evaluation of knowledge, skills and motivational aspects. The process of selection includes the presentation of the Europass CV, cover letter and an interview with project leaders.

STUDENT SELECTION PROCEDURE

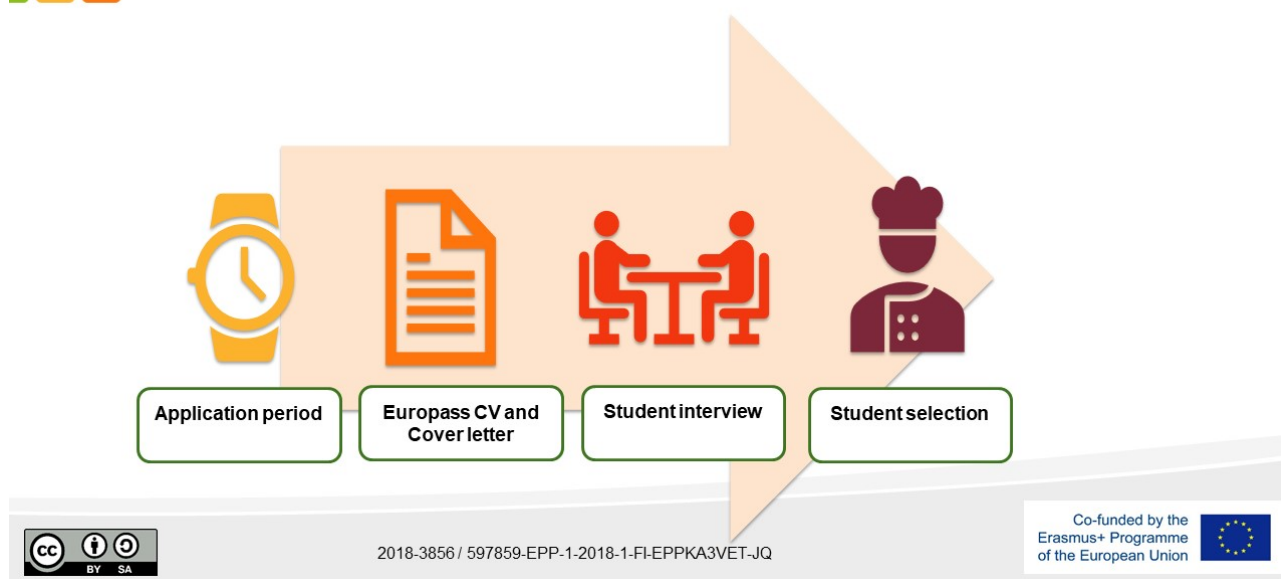

Photo 1. Student selection procedure

This selection process will begin at the beginning of the project/workshop and will be carried out according to specific requirements by which each institution will choose its "European delegates". According to the competences of each student (vocational competences, but also others, such as language skills, entrepreneurial skills and social media skills). Also, the willingness to participate in workshops and/or presentations is very important. These European delegates will be chosen by the whole teaching team of the school.

The team representation of the selected students is not limited only to their participation in learning activities, but they will also be assigned tasks and specific missions in the official events of the project and also the possibility of organising, giving talks and presentations during special events etc.

In order to ensure high engagement in activities we will give priority to the students who will fulfil at least 3 of the criteria below:

- ✓ express the interest in participating in the project
- ✓ ability to communicate in English
- ✓ active participation in activities also for foreign students and/or staff
- ✓ active in using social media
- ✓ sense of responsibility (towards studies and life)
